

Senior QA Engineer & University Professor

Cartago, Costa Rica | +506 60717675 | sebastian.grossberger.v@gmail.com | [LinkedIn](#) | [Page](#)

QA Engineer with 6+ years of experience in web, API, and Salesforce platform testing, specializing in automation frameworks including Playwright, Cypress, and Selenium. Currently expanding expertise in Salesforce-specific automation tools while serving as University Professor at Universidad Fidelitas. Proven track record of leading QA squads, implementing CI/CD quality gates, and increasing automation coverage to 80% in enterprise domains. Active Salesforce Trailblazer with 33+ earned badges across Security, Marketing Cloud, and Platform Fundamentals.

WORK EXPERIENCE

Nitel | San Jose, Costa Rica | Senior *QA Engineer* | **Oct 2024 – Present**

- Designed and executed comprehensive test strategies for web applications with Salesforce integrations, ensuring data accuracy and seamless cross-system workflows.
- Led automation initiatives using Cypress/Playwright, creating 150+ automated test cases for critical business flows.
- Utilized Salesforce platform to validate integrations, custom objects, and workflow rules, managing E2E cycles in Jira.

The Lifetime Value Company | San Jose, Costa Rica | *QA Engineer* | **2020 – Sep 2024**

- Led two QA squads (Email & Flow), mentoring 2 junior engineers into leadership roles and improving testing efficiency by 30% through methodology enhancements.
- Validated critical API endpoints with Postman/automation suites and collaborated with DevOps to embed quality in CI/CD.
- Conducted performance testing using JMeter, identifying bottlenecks and optimizing response times.

Universidad Fidelitas | San Jose, Costa Rica | *University Professor (Software QA)* | **Jan 2023 – Present**

- Instruct undergraduate students on QA methodologies, SDLC, and automation (Python/Selenium), achieving a 90% placement rate for participating students.
- Designed practical workshops and provided 1:1 mentorship to over 400 students, fostering coding best practices.

Pernix | San Jose, Costa Rica | *Apprentice QA Analyst* | **2019 – 2020**

- Developed automated regression scripts using Selenium/Python, reducing manual execution time by 50%.
- Conducted comprehensive testing (regression, responsive, performance) achieving 80% coverage and identifying security vulnerabilities.

SKILLS & EXPERTISE

- **Automation & Tools:** Playwright, Cypress, Selenium, Provar, Postman, SoapUI, JMeter, Jenkins, GitHub Actions.
- **Salesforce:** Integration Testing, Workflow Validation, Data Integrity (33+ Trailhead Badges).
- **Languages:** Python (Advanced), JavaScript/TypeScript (Advanced), SQL (Intermediate), Java/C# (Familiar).
- **Methodologies:** Functional, Regression, Smoke, Exploratory, Risk-based testing, TDD.

EDUCATION & CERTIFICATIONS

- **Bachelor of IT Management** | Tecnológico de Costa Rica (TEC)
- **Certifications:** Scrum Foundation (SFPC™), Cybersecurity Awareness (CAPC), Salesforce Trailhead (33+ Badges).
